

**Enhanced cable solutions
to strengthen your navy.**

Performance

Complete offer

Worldwide
presence

For your integrated on board environment, Nexans provides a complete range of energy and telecom cables which fully conform to the world's strict naval standards. Our solutions are designed to meet Navy's

increasingly complex requirements and we constantly innovate to reduce weight, volume and improve data speeds. You can rely on Nexans to get services that only a world-class manufacturer can provide.

Because so much of your performance runs through cables.
