Unitube cable with lateral strength member - 24 fibres MM 50/125 OM2

DESCRIPTION

This unitube cable is designed for indoor/outdoor installation.

This cable has a good fire behaviour.

This cable can be operated under a large temperature range.

Design

This UG LSZH SP1891 cable has a design with a central loose tube containing 24 fibres. This structure is surrounded by a layer of reinforcement yarns and two lateral strength members into the LSZH outer jacket.

Fibre type

The UG LSZH SP1891 cable is available with singlemode and multimode fibers.

Technical performances

The unitube cable performances are specified in the following tables.

Additional details

This cable is provided as a standard with a black sheath, other sheath colours are also available. Long exposure to UV with these other colours could generate colour fading.
