Our people

EUROMOLD®

Nexans

50 years of powerful connections

Ideas pop up at any level

We definitely believe that diverse, inclusive and passionate teams add to the way of coming up with new ideas at any level of the company and is an enrichment that makes a difference in pushing the company forward.

We invest in relationships

If we want to continue to come up with a solid solution to any Power Accessory connectivity problem that our customers may deal with, it is very important to us that we understand our customers and the power accessories industry in total. We have a highly trained professional team that can investigate the needs of our customers and can supply the necessary products.

Our people have the power!

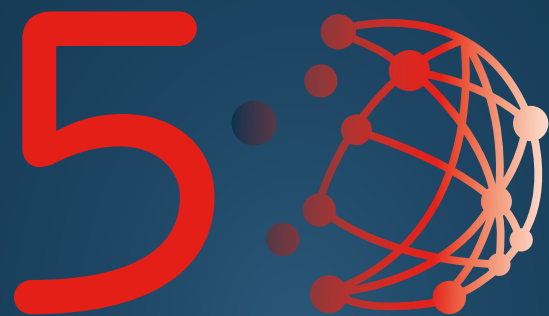

An innovating idea can maybe start with one person but the process of bringing that idea to life and creating an exciting new product is only made possible by our confident and highly devoted people within Nexans Euromold. They continue to give us the power, the believe and the strength to keep ahead of our game and have that competitive edge in the Power Accessories Industry.
